Training within the industry

7 members of staff are currently working towards our unique Masters degree at Glasgow Caledonian University.

We were awarded the Training and Development Award at the 2017 Construction News Awards held in London.

17 employees have graduated from University within the past 5 years in subjects including Quantity Surveying, Construction Management and Marketing.

We hold fortnightly CPD seminars on the latest industry topics within our offices in Paisley and Edinburgh.

We sponsor 5 awards at Glasgow Caledonian University's School of Engineering and the Built Environment annual awards.

As members of the 5% Club, we have pledged to ensure that at least 5% of our employees are in formal training programmes within 5 years. We are currently exceeding this target by 15% as over 20% of our workforce are studying towards formal qualifications.

"We are delighted Clark Contracts signed up to the Partnership agreement with Invest in Renfrewshire and agreed to offer job creation through the support of two young people who then accepted permanent positions with the company. They have also helped with the provision of work experience placements for labourers across Renfrewshire."

Therese McKendrick, Economic Development Officer, Invest in Renfrewshire.

Work Placements

In 2018 we welcomed 6 students from Glasgow Caledonian University to complete their 6 month work experience placement. The four Construction Management and two Quantity Surveying students will complete the placement as part of their degree course. The placement will provide them with hands on experience of working on real projects.
